

Mortex Texture Sprayers: For Kool Deck® Elite™ & Systex® Texture

Get More Done Faster.

The Mortex Texture Sprayers are the perfect pumping systems for the contractor who is ready to graduate from a dash brush to a faster, more-productive, less-fatiguing spray rig.

Includes specially designed wand for application of Mortex texture materials.

- **Small and portable - easy to bring on and off the job site.**
- **Texture Pump delivers smooth material flow for uniform coverage and a consistent pattern.**
- **Lightweight Spray Wand allows material to be kept back at the pump so you're left to manage only the weight of the wand.**

Note: This is the only type of sprayer that can be used to apply Kool Deck®. Standard hoppers will separate the sand from cement in the mixture and cause delamination and ununiform color.

Air pressure settings need to be adjusted for the desired pattern.

Part Number	KXRTX 650	KXRTX 1250
Hopper Capacity	5 gallons	10 Gallons
Weight	25 lbs	80 lbs
Dimensions	12 W x 20 L x 20 H (in)	20 W x 24 L x 41 H (in)
Max Hose	20 ft	25 ft
Motor Size	1 hp	1.7 hp
Max Working Pressure	65 psi	70 psi
Compressor Air Output	User supplied air compressor required	included in the unit 8.7 displacement cfm
Minimum air compressor rating	3.5 cfm @ 40 psi	4.0 cfm @ 45 psi

Custom Lightweight Spray Wand

Our exclusive Spray Wand reduces fatigue by keeping material in the pump and not in the wand.

Wand also sold separately.
