

Rite Strips are L shaped PVC extrusions used to minimize the large radius on the top of a fiberglass pool for the use of a cantilever form.

Packaged:

112 feet in 14 – 8 foot lengths

8 x 1” self-tapping screws provided for mounting the strips

Cove Strip can be used with Rite Strip to form a water stop and assist with alignment. (Diagram 1 & 2.)

Spear & Button or Tie Wire attachments can be used depending on the size of the lip of the fiberglass pool.
