

Fill-N-Flex Joint Seal

Pourable Self Leveling Joint Seal

Fill-N-Flex is a special two part blend that is pourable and self leveling. The cured material will have 30% elongation while maintaining a tough semi-rigid chemical resistant surface. The material can be used in joints and/or cracks in concrete, Kool Deck, surfaces in expansive soil areas and freeze/thaw areas.

Coverage

96 oz Kit

¼" x ¼" 231 linear ft

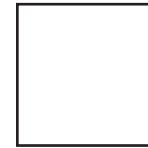

½" x ½" 58 linear ft
